Terms & Glossary

SHELL EXECUTIVE

A TRULY UNIQUE EXECUTIVE DESK SHAPED TO ITS USER

KEY FEATURES:

By combining carefully selected materials, soft curves and layered textures the shell range achieves a sort of modern luxury rarely seen in executive offerings. The shaped birch-ply top has a reverse chamfer and an xtreme matte laminate finish with a low glare, anti-fingerprint, and silky smooth feel. The laser-cut steel frame legs are another feature that makes this desk iconic. The shape of the desk lends itself to a multitude of configurations.

The Shell storage also shows off the layers of birch-ply and has the same Xtreme matte finish.

SHELL EXECUTIVE DESK

The shaped birch-ply top with an xtreme matte laminate finish with low glare, anti-fingerprint, silky smooth feel. The laser cut steel frame legs are powder coated.

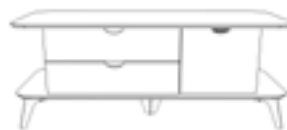

2200 X 1000 X 718 | 2000 X 900 X 718 | 1800 X 900 X 718

SHELL SIDE STORAGE

2 Drawers and a deep drawer with a cut-away handle that exposes the birch-ply layers. Laser-cut feet mirror that of the desk.

1500 X 520 X 600

SHELL MOBILE PEDESTAL

1 Drawers and a deep drawer with a cut-away handle that exposes the birch-ply layers. Laser-cut feet mirror that of the desk.

400 X 500 X 574

SHELL WALL UNIT

The Shell Wall unit offers closed storage at the bottom and open display shelves at the top. And a coat hook on the overhang of one shelf. Leveling feet and black pin handles on the drawers are standard. Please enquire about customising the handles.

1500 X 520 X 600

MALUTI DREAM DESK

HEIGHT-ADJUSTABLE DESK FRAME WITH A SHAPED TOP

- KEY FEATURES:
- It doesn't get much better than an ergonomic design that comes complete with a shaped birch ply top (anti-fingerprint, anti-reflection, antibacterial), Maluti single frame and programmable control. The user can set and store up to 4 preferred desktop positions.
- Available in these standard sizes:
1600 x 900 x HA
1800 x 940 x HA
- Height variation Floor to desktop:
694mm - 1210mm height
- Lifting Speed: 38 mm/s
- Maximum lifting weight: 110kg
- Noise Level: Low Motor Noise
- Uniquely programmed: Built-in Anti-pinch system
- German and Austrian drive & electronics and Premium Quality components
- Manufacturing Guarantee: 3 year warranty
- Product of South Africa
- The cable management port also fits a Punto Plus power set (sold separately).

MALUTI HEIGHT ADJUSTABLE FRAME
The single frame accommodates tops of 1200mm – 2000mm wide | 600mm – 900mm Deep

DREAM DESK TOP
Ergonomic design. Includes a 80mm cable management port (fits Punto power set). Pre-drilled.
1600 x 900 x 18 | 1800 x 940 x 18

COCOON MODESTY PANEL FOR MALUTI SINGLE FRAME
Fully upholstered modesty hooks onto the Maluti frame's cable tray. Hide cables and finish off the look.
1400 x 380

OPERA DESK

WITH DESK-BASED STORAGE

KEY FEATURES:

The status desk has an iconic steel leg and a large, clean work surface with practical storage that has a central lock. The open shelves at the front of the desk for display purposes makes front view of the desk more interesting

COLOUR COMBINATIONS:

OPERA STRAIGHT DESK WITH PEDESTAL

Universal design (non-handed). The top drawer has a drop in pen-and-pencil tray, while the bottom drawer can accommodate foolscap hanging files.

2200 X 900 X 740 | 2000 X 900 X 740 | 1800 X 900 X 740

OPERA L-SHAPE DESK WITH SIDE STORAGE

Please specify if the storage should be on the Left or Right hand side (when seated behind the desk).

2200 X 1800 X 740 | 2000 X 1800 X 740 | 1800 X 1800 X 740

TITAN DESK RANGE

UNIVERSAL DESIGN (NON-HANDED)

KEY FEATURES:

The all-in-one desk includes the top, the storage, the modesty panel and it can be configured with the storage either on the left or right hand side (when seated behind the desk) making it easy to order for any room. The top drawers are lockable and have a floating pen and pencil tray. Adjustable feet help to level the desk.

COLOUR COMBINATIONS:

TITAN MANAGER | STRAIGHT CONFIGURATION

1900 X 800 X 732

TITAN EXEC | L-SHAPE CONFIGURATION

Includes a lockable door. The adjustable shelf allows you to fit lever arch files.
1900 X 1800 X 732

JUNO DESK

A DOUBLE LAYER TOP & WATERFALL-LEG

KEY FEATURES:

It is all about that dual-layer top that ends in a waterfall leg on one side, while it hovers over the side storage on the other side. A dramatic desk with architectural elements. It also offers plenty of storage and cable management ports.

COLOUR COMBINATIONS:

JUNO EXECUTIVE DESK

Juno L-shape desk with side storage. Has a two-tone (38mm, double layer) top and waterfall panel leg. Side storage includes a 3-drawer unit with a pen & pencil tray; a sliding door & open filer unit with an adjustable shelf. Includes modesty panel

Colours A: top layer of the desktop and leg, the modesty panel, the storage top, back, drawers and sliding door | B: 2nd layer of the desktop and panel leg, sides and base of the storage

EVOLUTION L-SHAPE

WITH DESK-BASED STORAGE

KEY FEATURES:

The L-shaped desk extends the work surface onto the side storage. The storage includes a pen & pencil tray, a deep drawer that fits foolscap hanging files and a bookcase with lockable doors. A modesty is included. The open shelves at the front of the desk for display purposes make the front view of the desk more interesting. The desk and storage rest on an evolution steel frame with a shadow line and levelling feet.

COLOUR COMBINATIONS:

EVOLUTION L-SHAPE DESK WITH SIDE STORAGE

Please specify if the storage should be on the Left or Right hand side (when seated behind the desk).

2000 X 1800 X 722 | 1800 X 1800 X 722

EVOLUTION

SINGLE WORKSTATIONS

PUNTO+ DESKTOP POWER

The power set fits into the standard 80mm cable management port on the desktop. It allows the user to power a laptop, phone and light, and accommodates a pull-through network cable. 2-Port USB connections in our power sets come fitted with a type A & Type C fitting. 5m Cable is included.

MONITOR ARM

Ask us about the benefits of a monitor arm on your workstation.

OBLIQUE POWER SET

Fits into the cable tray under the desktop. It can be used to power the desk motor(s), desktop power set (optional extra), and additional device such as a monitor or light.

- Add a:
- 5m cable with 3 point plug
 - Interconnecting cable to connect multiple desks in series.

LOGICLINK CONTROL UNIT

You can upgrade to a LOGIClink control unit, which can be manually controlled but also allows connection to a free Motion@Work app on your smartphone that can be used to control your desk movement within a Bluetooth range. The app can also alert you when it is time to stand again, helping you to optimise the use of the desk. You can store your preferred height settings and review your desk usage on the app.

- Evolution locker 6-door on a steel frame - 1510 x 450 x 1272
- Evolution locker 4-door with hook and shelf - 1510 x 450 x 912

ELEVATE STORAGE

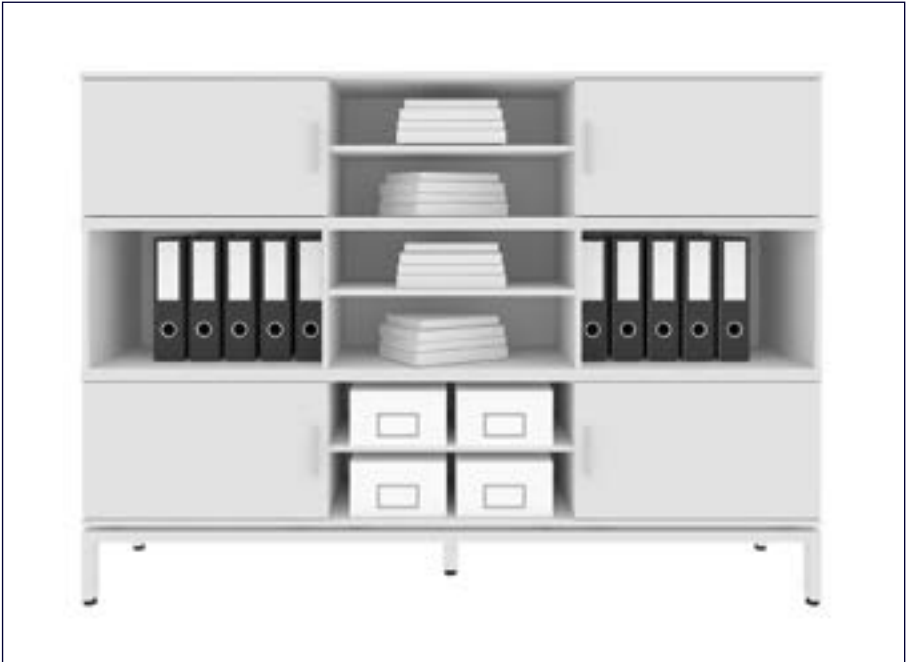

STORAGE ON EVOLUTION STYLE FRAME

ELEVATE STORAGE

Think of the elevate range as storage building blocks, start with the evolution style frame and choose the storage that best suits your needs. Create bench seating with magazine pigeon units, or create a TV-console or side storage for your workstation. Go higher (no higher than 1700h) and create a filing and display cabinet. This product requires installation.

POPULAR CONFIGURATIONS:

ELEVATE STORAGE FRAME (50X25)

- Large 1800x450x200
- Medium 1200x450x200

ELEVATE CUSHION 600X450 UPHOLSTERED

- Large 1800x450x180

ELEVATE SLIDING DOOR STORAGE CABINET

- 1200x450x370
- Lockable

BACKDROP DISPLAY

CUSTOM STORAGE AND DISPLAY DESIGNS

BACKDROP DESIGN GUIDELINES:

For stability there will always need to be at least one "complete" storage unit (with top, bottom, back and sides) included in your design.

Wood components: All horizontals will be 22mm melamine, all verticals can be 16mm melamine.

Wooden storage units: Doors and drawers hide the verticals edges of the carcass, whilst the horizontal top and bottom of the carcass remain visible.

The direction of the grain is always vertical.

The largest recommended distance between steel frames/tubes is 1200, this is to avoid shelves sagging or overloading of storage units.

Steel: is 25mm square tube, and inset 50mm from the front and back of the shelves/storage units.

The steel frame has leveling feet.

There will always be a break/shadow-line between shelves/storage units where

they are separated by the steel frame.

A top/counter would not have any breaks for steel frame, in this case the fitting is "installed" in the steel frame and screwed up, into the top.

Only use steel tubes vertically and avoid return/horizontal steel tube (connecting the front and back vertical steel frames). This is to try and limit drilling to only 2 sides of the tube/frame, simplifying installation. It is however possible if the design requires it.

STORAGE AND DISPLAY WALL

You can create a custom storage unit that meets all of your storage needs, from lockable drawers and doors to closed shelves.

Incorporate display shelves to personalise the storage and add character. Strip lights can be a great way to highlight your displayed items and a beautiful glow in the evening.

If you don't have a drawing/design of what you need, create a list of all the things you need to store and take some photos of the items you want to display. Make sure to measure the available space and arrange a consult with one of our designers to create a custom backdrop solution for you.

COFFEE STATION

Every office needs good coffee. Use the Backdrop display range to create a beautiful coffee station in your open plan. Let the comforting aroma of coffee make your employees and visitors feel right at home.

We recommend an installation team who is familiar with our product for best results.

RETAIL DISPLAY

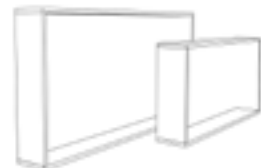

This is the ideal range to create bespoke storage for a retail space, whether it is for a salon, a deli or a clothing store. Make your products accessible in a beautiful display. Put high storage against walls and lower storage on the floor.

Best of all, the Backdrop isn't shop-fitted, thus it can be moved around, disassembled and reassembled in a new home or office. No cutting, or drilling on site, all items are pre-drilled and storage boxes arrive pre-assembled.

RECEPTION

COUNTERS & FURNITURE

TRIO RECEPTION COUNTERS:

The trio is a low counter with the panels to hide a computer screen. Includes desk surface and cable management ports. Be sure to specify LHS or RHS. Colours A: Main counter and desktop B: 3 accent panels

COCOON LOUNGE

SOFT-SEATING & SCREENS

COCOON SEATING - SEATING KEY FEATURES:

The range is structurally very strong, with an Evolution style steel frame, with shadow line and leveling feet. The Acoustic Booth and Pods dampens sound, reduces visual and sound distractions, making you feel "cocooned-in". The range also includes a single, double and three-seat regular height couches and a Cafe-bench. The rounded corners tie in with the rest of the cocoon range of screens. We can upholstered in your choice of fabric.

COCOON DOUBLE SEATER COUCH

1500 X 750 x 840

- Steel frame with shadow line. Available with or without a power set cut-out.

PLEASE ENQUIRE:

Our STARK range (pictured above) is ideal for projects that call for a customised solution.

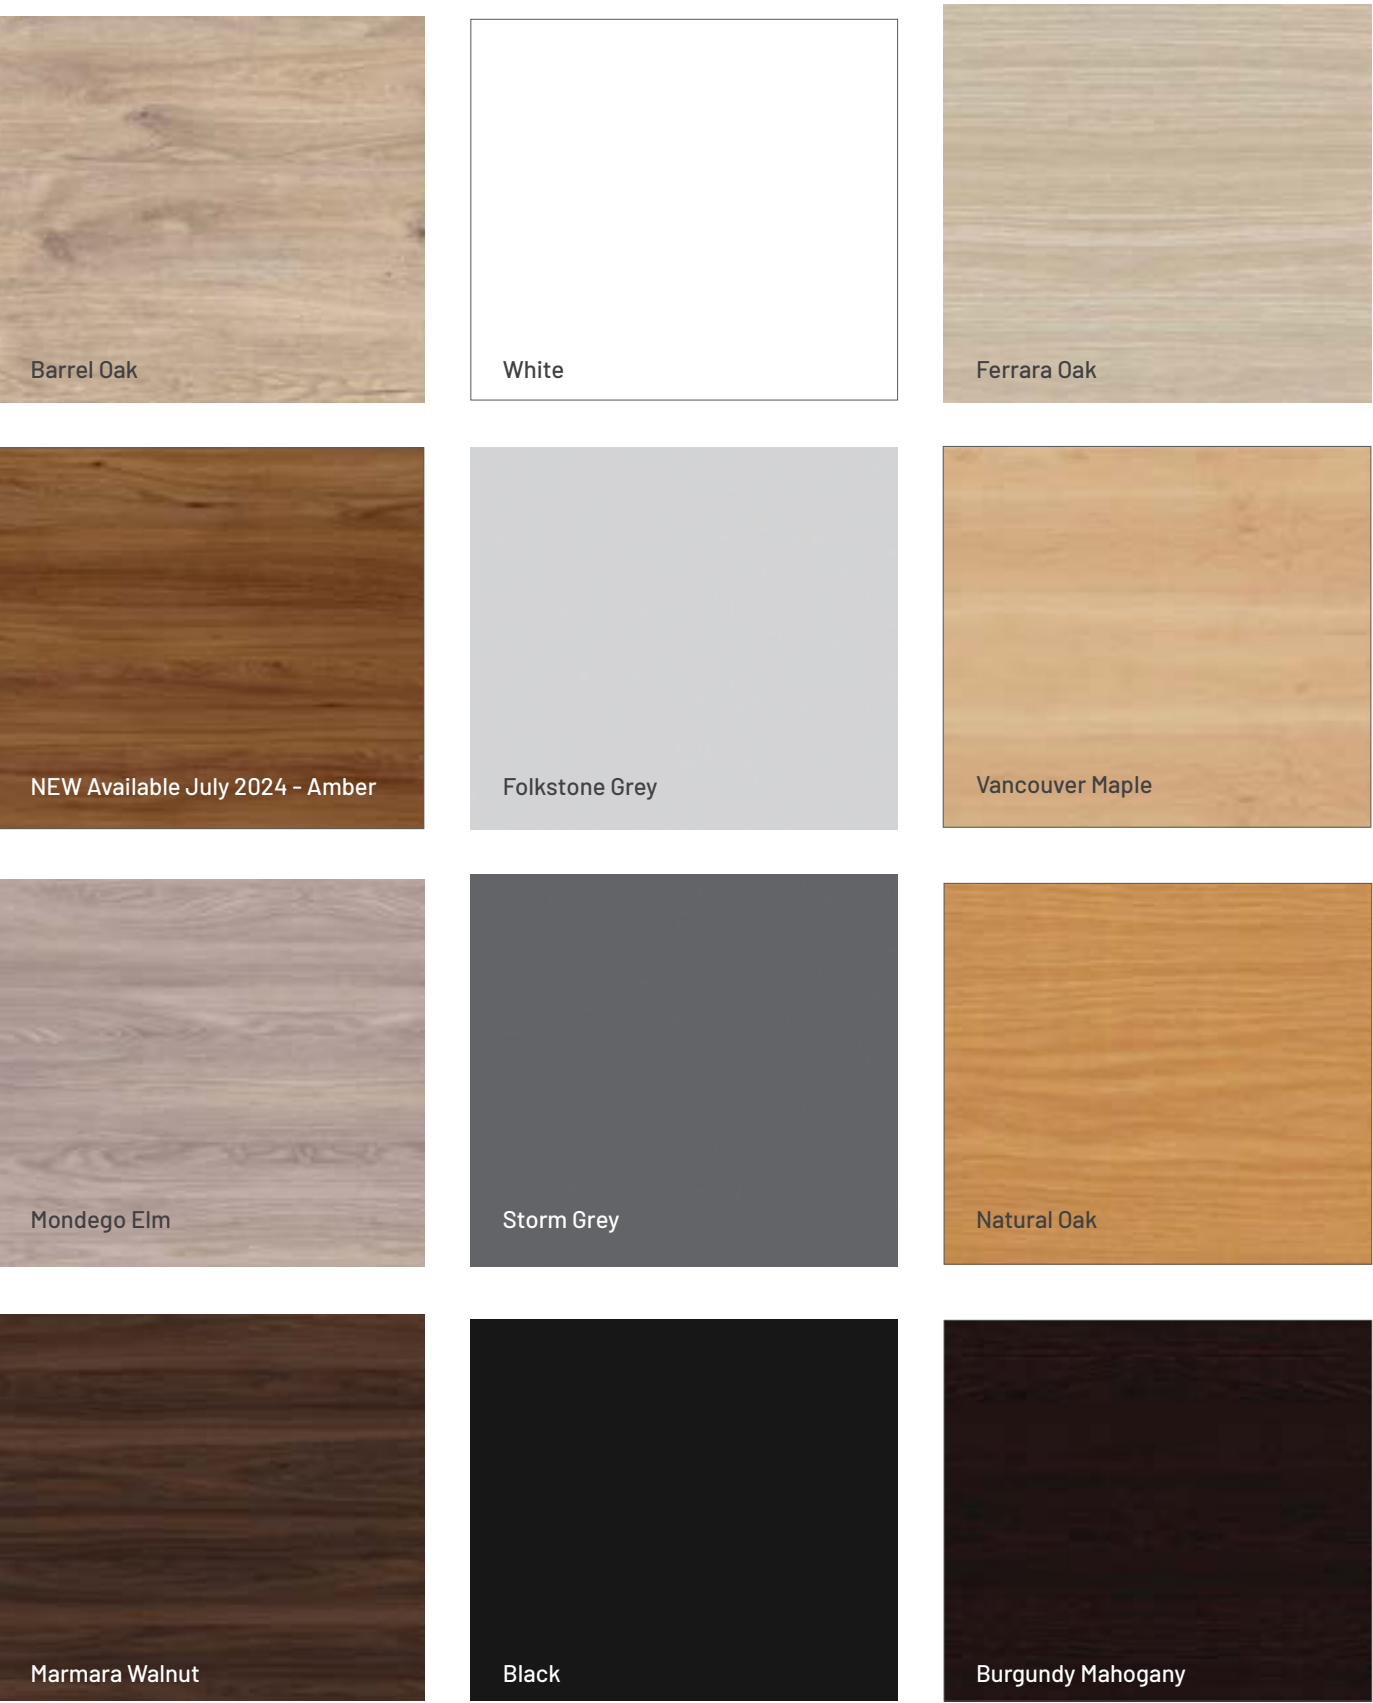

Steel frames hold the desktops, screens, cable channels and, in this case, planters in place, creating a very sturdy structure with minimal brackets or extras. Pre-planning and layouts are essential in making this design work to its full potential.

Our STUDENT FURNITURE includes steel beds, BIC's desks and kitchenettes. Each project calls for it's own solution. Pictured left is the final student room in Cape Station.

MELAMINE COLOURS

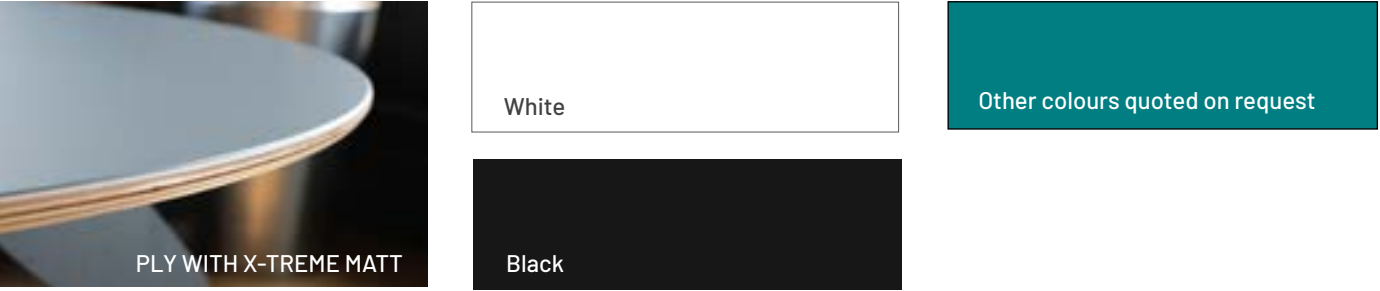

Melamine Faced Board (MFB) is pressed in our own factory using Entrawood's unique colours.

DISCLAIMER: These colours may not be an accurate representation of the final product, please request a sample board before making a decision.

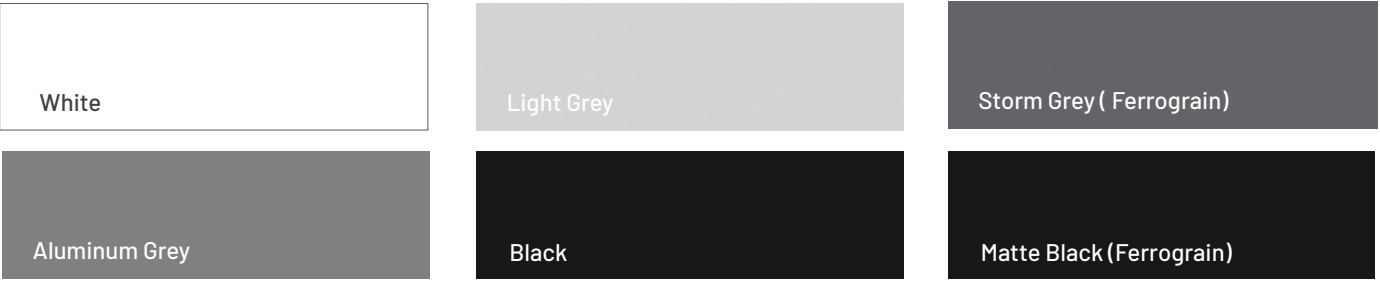

STANDARD LAMINATE (HPL) & X-TREME MATT COLOURS

X-treme Matt (FENIX NTM®) - opaque with low light reflectivity, anti-fingerprint, soft touch and anti-bacterial.

STEEL FRAME POWDER COATING

We have our own powder coating plant. You can inquire about COM colours.

CHAIRS STANDARD FABRIC OPTIONS

You can enquire about COM colours, please allow an extra 20% for patterned fabric.

WHAT YOU CAN EXPECT

ENTRAWOOD TERMS OF SERVICE

LEAD TIMES - DELIVERIES

All products are made-to-order. We do not keep stock. We deliver in Gauteng within 10-15 working days and all other areas within 15-20 working days on standard items. Products that use birch ply or are upholstered have a lead time of 15-20 working days, since these products are hand finished.

Delays in customer signing off custom product drawings, will push out the delivery date accordingly.

Fabric delivery delays, from fabric houses, will impact lead times directly. Please check that your fabric is in-stock with the fabric house to avoid disappointment.

We understand that sometimes our clients need extra support from us. Express delivery is available on a limited basis for emergencies (6 working days). This interrupts the factory and will incur an additional charge.

LEAD TIMES - DESIGNS

Space planning/layout services, please allow at least 48-hours for layouts and renders.

We support our standard ranges with customised designs, we refer to this as a "special". We need a day or two to draw it up and send it through for sign-off.

Lead times on "special" products require an additional 2-3 days lead time. We do not accept returns on "specials".

5-YEAR GUARANTEE

5-Year manufacturing guarantee, means all products goes through a quality assessment before being packed.

The guarantee covers "normal use" (9 hours/day, 5 days/week) and excludes abuse.

We will replace products or components in the case of a manufacturing default.

Entrawood products are easy to assemble and comes packaged with

necessary hardware and instructions.

We upgrade our own board and we use matching colour 1.6mm impact ABS & PVC edging that has a high UV and scratch resistance and a clear glue is used for an invisible bond-line. All boards are pre-drilled for ease of assembly.

Our steel products are cut, welded and powder coated in house.

Our upholstery department makes up all of our own products. However, fabric

carries it's own guarantees from the source fabric house.

A sophisticated ERP system links with our CRM and accounting systems for a seamless production and communication processes.

ISO 9001:2015

Entrawood management systems are ISO 9001:2015 certified for the manufacturing of office furniture conducted by TNV Certification Pvt Ltd.

SADC EXPORTER

Entrawood & Entrakor are registered at customs as SADC exporters.

Our products are individually packaged and bar-coded. Please enquire about the appropriate forms.

SUPPORT LOCAL

Proudly South African with over 30 years of experience in the design and manufacturing of office furniture.

We promise a minimum of 90% local content on our *main ranges – raw materials are sourced and manufactured in South Africa.

SUPPORT SA-COMMUNITIES

We are committed to job creation and skills development in our area. We believe that our human capital is our biggest asset.

DELIVERY & INSTALLATION

We make use of logistic and installation service providers, and cannot be held responsible for any deviations from plan by any of the service providers. That said we have an excellent relationship with them and work together to ensure the best client experience possible.

We can deliver direct to your client/ installation site provided that the direct delivery form is completed and submitted at least 5 working days, prior to scheduled delivery date.

There will be an delivery charge on direct deliveries for orders less than R30000 net value.

The logistics team deliver to the ground floor. They do not unwrap or place products.

Deviations to committed deliveries will be notified immediately.

Deviations by client requested deliveries must be flagged 3 days prior to scheduled delivery date, by the client.

GLOSSARY

TERMS THAT WE USE FREQUENTLY

COM - CUSTOMER OWN MATERIAL

This term means that the product price excludes the fabric, we specify how much fabric is needed and clients can have fabric delivered to our showroom to make up their product. If Entrakor has to order the specified fabric, there will be a handling fee charge.

LM - LINEAR METER OF FABRIC

A roll of fabric is generally 140cm wide. Where you see LM it means that you need that many meters off the roll to make up the product.

HPL - HIGH PRESSURE LAMINATE

We press our own board. The standard stocked colours are black and white.

XTREME MATTE - LAMINATE

This is a soft-touch laminate with a silky feel it has anti-fingerprint and anti-glare properties.

MELAMINE

Melamine faced chipboard standard surface is antibacterial due to the nature of the system. This function is checked and proofed by independent testing institute ISEGA in German. All our impregnated paper is antibacterial. Tested according to ISO and JIS

DUAL DESK - 2-WAY DESK

Two people can sit and work across from each other.

L-SHAPE CONFIGURATION

This refers to the shape of the configuration of a reception counter, executive desk or desk with extension as an example.

LHS OR RHS

When you are seated at the workstation the storage tends to be to either the left or right of you.

SPLIT TOPS

Board sizes:
Birch ply 2400 x 1200
Chipboard (melamine) 2700 x 1800
These limitations may mean that large meeting tables will have 2 part tops.

FLOATING TOP

A shadow line is visible between the top and the leg. This is achieved using brackets or spacers.

LAYOUT

This is a plan of the space plotted with the desired furniture to ensure that there is sufficient space for optimal flow of employees and information.

CORNER LINK

This is a triangular (sometimes rounded) piece of board that links two items (usually two desks or desk to storage).

BIC - BUILT IN CUPBOARDS

Usually referring to wardrobes or kitchen cabinets.

ERP SYSTEM

Enterprise resource planning (ERP) is a software system that helps you run your entire business, supporting automation and processes in finance, human resources, manufacturing, supply chain, services, procurement, and more.

CRM SYSTEM

Customer relationship and marketing management system from where we manage all of our client touch points.
